

## Who we are:

- HealthCare Choices NY, Inc. 's PrEP2Love Program
  - Our primary objective is to empower our patients and community residents to achieve healthy and happy lifestyles through connection to stigma-free services with education and resources provided. We strive to strengthen the community's health by providing open access to supportive services including testing, prevention, referral to care and education.

## What services PrEP2Love offers:

- Confidential HIV screening
- In house or at home testing
- Counseling and education
- Pre-exposure prophylaxis (PrEP)
  - *Daily PrEP reduces the risk of getting HIV from sex by more than 90%. Amongst people who inject drugs, it reduces the risk by more than 70%.*
- Post-exposure prophylaxis (PEP)
  - *If you think you were exposed to HIV, start taking emergency post-exposure prophylaxis (PEP) immediately. PEP can stop a new HIV infection if you start taking it within 72 hours of exposure. To get started on PEP right away, call the 24/7 NYC PEP Hotline at 844-3-PEPNYC (844-373-7692).*
- Linkage to Primary Care and Specialty Services

## Program eligibility:

- Individuals 18 and older regardless of a person's health insurance status or ability to pay for services.
  - *Under 18? Text "TESTNYC" to 877-877 where Free or low-cost tests are available for anyone 12 and older can get a confidential, **anonymous** test at NYC Sexual Health Clinics, regardless of immigration status. You do not need to have consent from a parent or guardian to get tested.*
